Future Thirteenth Sabbath Projects

The Thirteenth Sabbath Offering next quarter will help the Southern Pacific-Asia Division to establish:

- Elementary school in Luang Namtha, Laos
- Student dormitory at Timor-Leste Adventist International School in Dili, Timor-Leste
- Health center in northern Pakistan
- Children's learning center in Long Thanh, Vietnam

Let's Cook!

BOORTSOG

(MONGOLIA)

INGREDIENTS

pinch salt	1/2 cup (120 ml) warm water
1/2 cup (100 g) sugar	2 cups (240 g) white flour
1/4 cup (56 g) butter	Vegetable oil for deep frying

INSTRUCTIONS

Dissolve the salt and sugar in warm water. Mix the water, butter, and flour together, and knead until the dough is firm and elastic.

Let it rest for half an hour, and then knead again to knock out any air bubbles.

Roll the dough to a thickness of about 1/2 inch (1 cm).

Cut into rectangles about 1x2 inches (2x5 cm) and fry in the hot oil until they are golden brown.

Let cookies cool. Served with melted butter or honey.

THIS LITTLE LIGHT OF MINE

TAIWAN (MANDARIN)

In this issue we have “This Little Light of Mine” in the Mandarin language, which is spoken in Taiwan, as well as in China. Each line is shown first in English, then the phonetic pronunciation of the Mandarin (in bold), then in Pinyin, the transliteration of the Chinese characters, which are at the bottom.

ENGLISH This little light of mine, I’m gonna let it shine.
PRONOUNCE IT **wah nah way she-ow duh gwong, wah yow rong tah fong gwong**
PINYIN *wǒ nà wēi xiǎo de guāng, wǒ yào ràng tā fàng guāng*
CHARACTERS 我那微小的光，我要让它放光

This little light of mine, I’m gonna let it shine.
wah nah way she-ow duh gwong, wah yow rong tah fong gwong
wǒ nà wēi xiǎo de guāng, wǒ yào ràng tā fàng guāng
我那微小的光，我要让它放光

This little light of mine, I’m gonna let it shine.
wah nah way she-ow duh gwong, wah yow rong tah fong gwong

ORIGAMI

JAPAN

Origami is the Japanese word for making 3-D sculptures from flat pieces of paper just by folding them.

Origami can range from a simple paper airplane to intricate flowers and animals.

HOW TO MAKE A PAPER BOAT

- **Materials:** 1 sheet of letter or A4 paper

DIRECTIONS

Fold the piece of paper in half lengthwise, open it up, turn it a quarter turn, and then fold it widthwise, with the fold on top.

Fold the top corners down so the top edges meet up in the middle, and line up with the center fold. Press the folds down with your fingers so they stay creased.

Take the bottom flaps and fold each one upwards. Fold over the little flaps peeking over the edges of the triangle.

Pick up the folded paper with your thumbs in the opening at the bottom. Pull outward gently until the ends come towards each other and meet. You will now have a flat diamond shape.

Press all the folds with your fingers to make it completely flat.

Fold up the top layer of the bottom point to meet the top point, and make sure all of the edges line up. Press the new fold with your fingers.

Turn the paper over and do the same on the other side. You will have another triangle, but smaller this time.

Again, pick up the folded paper with your thumbs in the opening at the bottom. Pull outward gently until the ends come towards each other and meet. You will now have another, smaller diamond shape.

Press all the folds again with your fingers.

Now, pick up the folded paper and, from the top point, gently pull apart the sides of the folded paper and it should open up into a boat shape. Gently adjust the folds so that it will stand upright on the bottom.
